Objective:

I am a passionate python developer with a strong interest in Web Development and Artificial Intelligence. I have a solid foundation in technologies like HTML, CSS, JAVASCRIPT, PYTHON, DJANGO and Rest API. Having worked as a junior backend developer I gained experience working on real projects like customer support tools and web applications. Now, I am excited to explore more and dive deep into web development and Django.

Summary:

I have completed my Bachelor's in Information Management from Tribhuvan University, Nepal. To build on my academic background, I've taken online courses in Python and Django from platforms like Udemy and others. I've also worked as a backend developer and on personal projects. I'm passionate about technology and always looking to grow my skills.
